

## **Growing Points: Our Values**

- We genuinely believe that our work is driven by the needs of each customer: we work with them to identify **their** aspirations and we support them to achieve them.
- We offer unconditional regard for each customer and this extends to the small grants that we offer.
- We will treat our customers and everyone within **Growing Points** as we would wish to be treated; with respect and compassion.
- We will work with other organisations to form long lasting and productive relations to achieve the aims of **Growing Points**.
- We are open and honest in the way we do business and are not aligned to any political, religious, national, or local influences.
